

Sandberg Contracting

Sandberg Contracting is a local, family owned and operated, registered and insured, roofing and gutter restoration company. Owners, Ryan and Mindi Sandberg have over 20 years of experience in the construction industry, and have been completing roofs in the DFW area since 2011. Sandberg Contracting calls Dallas home, and we only service the DFW area. You can trust us to give great customer service throughout your reroofing process.

Storms, strong winds, hail, and many other factors may damage the exterior of your home or office. These damages need to be addressed immediately to keep them from worsening. Look no further than Sandberg Contracting when you need storm damage repair experts you can rely on. We serve residential and commercial clients in Dallas-Fort Worth metroplex.

Before calling your insurance company, let us come and perform our complimentary 7 point inspection. From there, we will provide you with the necessary steps and help you through the insurance process. We meet/walk with our client's insurance adjuster at their home during the insurance inspection to ensure that our clients are getting all of their damage included in their claim.

If you, or someone you know, are concerned about your roof after the recent storms, please give us a call and let us help you avoid all of the out of town storm chasers who will disappear in 6 months. We would love to add you to our reference list. If you have any questions, my contact information is below.
