Inspired by the homeowner's childhood in Hawaii, come enjoy this tropical paradise with swaying palm trees, water features, and bountiful colors while soft Hawaiian music drifts through the air. Don't miss the dancing dolphins or the whimsical frog collection which watch over this backyard garden.

[10907 Pinocchio](#)

Your sights and senses will be delighted from the moment you turn the corner and experience this lovely backyard. Designed with winding beds full of color popping perennials and annuals, water features and perfectly placed accent pieces, this backyard oozes total charm.

[3773 Northview Ln](#)

Find your Zen when you visit this outdoor modern sanctuary. The backyard was designed with attention to drought tolerant plantings accenting the koi reflection pool which is fed by a unique fire and water feature.

Explore further to find the raised vegetable garden overflowing with herbs and late winter/early spring veggies.

[3822 Elfland Circle](#)

Designed years ago by a master gardener, this backyard has matured into a flowing natural setting that provides constant texture and color year round with azaleas, tulips, blooming jasmine and more to greet spring time; and sprawling live oaks, Japanese maples, salvias and succulents lasting through our Texas summer.

[11125 Snow White](#)

Come see how a clean contemporary installation with towering shade oaks, a sleek stylish pool, and a focus on container plantings provides a delightful and welcoming spring and summer time family backyard retreat.

[Harry C Withers Elementary School Garden](#)

Installed in 2010 by grants from REAL School Gardens, Lowe's and North Dallas Early Childhood PTA, the garden features six grade-level plots allowing students and teachers to incorporate science and math learning. With a large koi pond full of tadpoles, koi, and the occasional duck family, the garden also feature a rainwater reservoir used for "green gardening". The garden is maintained by the families and staff of Withers Elementary.

[da Vinci School](#)

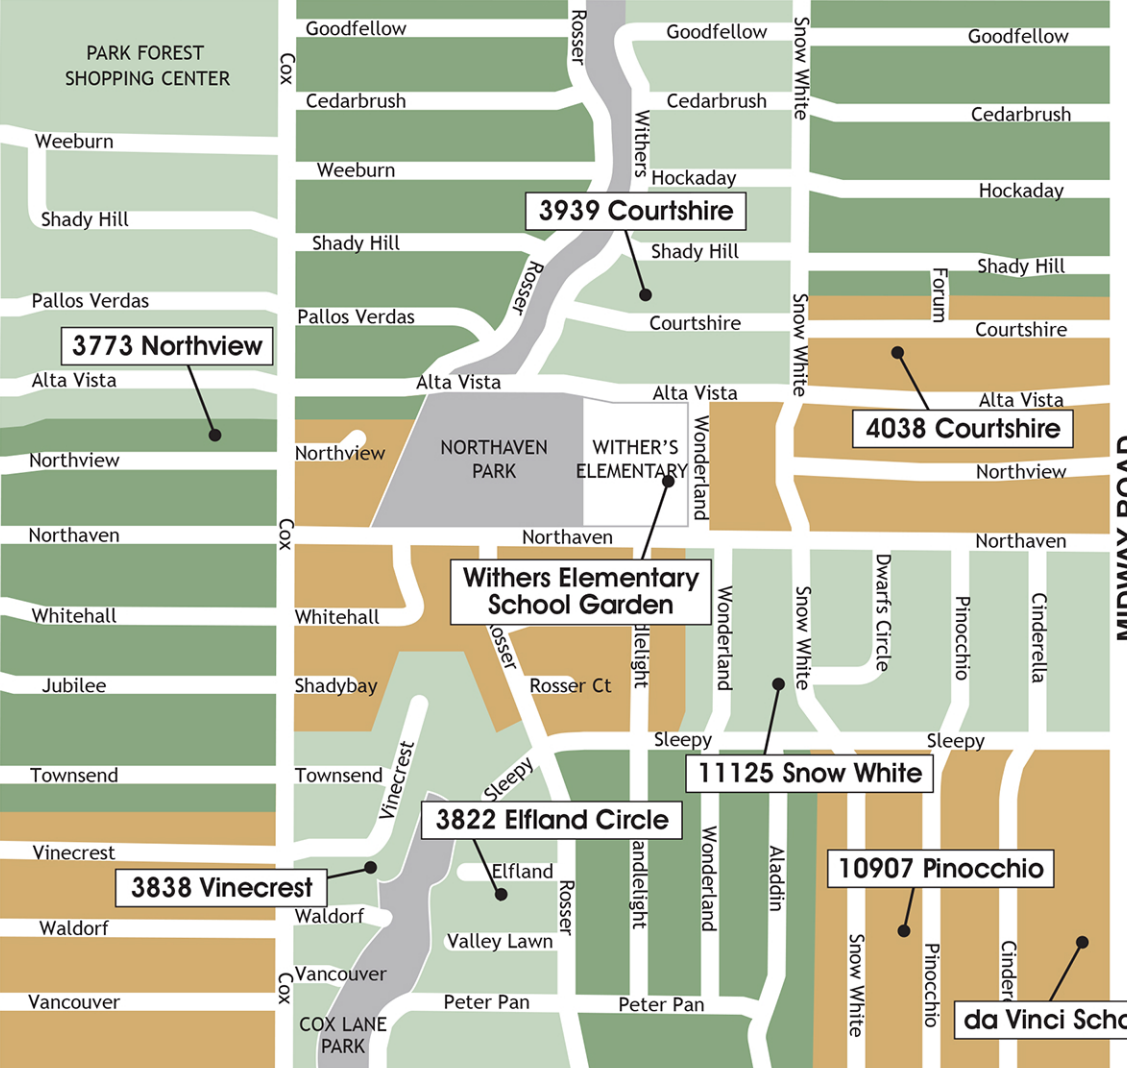

This Gold LEED certified early childhood education facility contains a variety of "green" features including a wild flower meadow, native trees, a 28,000 gallon rainwater collection system which provides irrigation via a drip line system. A list of flowers and trees will be provided to visitors.
